

ICD-10 Coding and PDPM – Simplified

The diagnosis entered in I0020B will determine the Clinical Category as a major payment component under PDPM. MDS Nurses will need to ensure the diagnosis entered maps to a clinical category found here: [PDPM Clinical Category Mapping Tool](#).

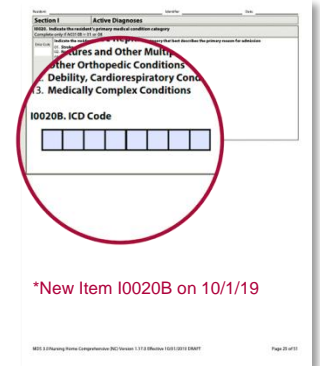

The diagnosis entered will map to one of the following categories, impacting reimbursement:

PT & OT

- Major Joint Replacement or Spinal Surgery
- Other Orthopedic
- Medical Management
- Non-Orthopedic Surgery & Acute Neurologic

ST

- Acute Neurologic

Other areas in Section I that will impact reimbursement under PDPM

I2000 Pneumonia		I5100 Quadriplegia	
I2100 Septicemia		I5200 Multiple Sclerosis	 
I2500 Wound Infection Code		I5300 Parkinson's Disease	
I2900 Diabetes Mellitus	 	I5500 Traumatic Brain Injury	
I4300 Aphasia		I5600 Malnutrition	
I4400 Cerebral Palsy		I6200 Asthma, COPD, Chronic Lung Disease	 
I4500 CVA, TIA, Stroke		I6300 Respiratory Failure	
I4900 Hemiplegia or hemiparesis	 	I1700 Multi-Drug Resistant Organism	

Free-text responses in I8000 that will impact reimbursement under PDPM

Lung transplant status		End-stage liver disease		Complications of specified implanted device or graft		Severe skin burn or condition	
Major organ transplant status		Chronic myeloid leukemia		Inflammatory bowel disease		Speech and Language deficits	
Opportunistic infections		Specified hereditary metabolic/immune disorders		Aseptic necrosis of bone		Disorders of immunity	
Bone/joint/muscle infection/necrosis		Morbid obesity		Cardio-respiratory failure and shock		Cirrhosis of liver	
Cystic fibrosis		Endocarditis		Chronic pancreatitis		Respiratory arrest	
Psoriatic arthropathy and systemic sclerosis		Myelodysplastic syndromes and myelofibrosis		System lupus erythematosus, other connective tissue disorders, and inflammatory spondylopathies		Pulmonary fibrosis and other chronic lung disorders	
Immune disorders		Proliferative diabetic retinopathy and vitreous hemorrhage		Diabetic retinopathy		Amyotrophic lateral sclerosis	
Dysphagia		Oral cancers		Apraxia		Laryngeal cancer	
Intractable epilepsy		Nacrolepsy and Catalepsy
